

## I Love To Probe!

As you can see I've moved my research back to the streets where I happened across a Mother and her two Daughters. Maybe they'll tell me what Women really want so I can get it on the Radio as soon as possible. Probing this lovely trio could prove to be very interesting even though I've been warned earlier not to even think about it.

How much do you suppose someone would pay me to maybe become my research assistant or do an internship with me as I continue my on going research project about Women's wants.

Most of the content on the Radio today seems to have been written by the sales department.

Unlike the USA, Canada hasn't spent a lot of money on the military since World War 2. So I wonder why they need such huge taxes. Hey maybe it's for that free health care.

The first time a Man hears those dreaded 3 initials PMS is shortly after he utters those 3 fateful words ... I love you!

I was having a great life, a couple of hit records out and I was just getting started in an exciting new career in Radio when God gave me a Daughter I guess so I could see the errors of my ways. I must have started slipping again because almost 30 years later he gave me another. Maybe I should stop dating.

The absolute best thing you can do on the Radio is intro somebody's favorite song by sincerely saying you love it too.

When Ronald Reagan began his first term as President he immediately started a war with Russia. Soon our economy was fixed and the best part was no shots were fired so none of our troops had to die. I wonder what part of that didn't the Bushes understand.

Rich Stevens of Big Talk 8-50 asked my old friend Randy Bachman (BTO) during a radio interview about his new book, what the correct pronunciation of his name was, Randy said he introduces himself as Randy Back Man of Bachman Turner Overdrive, that way he has them both covered.

Speaking of Bachman, I had some pops with Brother Gary here in Florida. Gary stays connected to the music biz in our hometown of Winnipeg by doing such things as selling Burton Cummings' Mansion in Winnipeg for him. Gary says Burton never stayed in it anyway. Whenever he was back in Winnipeg he stayed at the Fort Gary Hotel because his place didn't have room service at 3 am.

You are not born courageous you have to become it.

Winston Churchill said ... History will be kind to me as I intend to write it. I know exactly of what he speaks!

Everything already exists, we just haven't discovered it yet.

Boy those Gas prices sure zoom up quickly but come down like Heinz Ketchup.

If there is something you don't like and can't seem to change it, maybe it's you who needs to change.

Survival is part of the defensive team, your destiny is controlled by people on the offensive team.

It's a hell of a lot easier to say your sorry than get permission to do anything.

Words of love are easily brushed aside, but love once demonstrated is simply irresistible.

## The Blog

---

Jo Jo Holotka thinks I may be writing the new version of "50 Shades Of Grey" in my spare time. I'd sure like to try if she'd help out.

I did an interview with Mike Kinosian about the state of AC Radio which is going to appear in RadiolInfo.com as a 5 part series around February 25. Mike was very easy on me and later referred to me as a Gentleman. Now there's something I don't hear very often.

How come the further someone is away the more you miss them.

If it's not true it's not communication.

Most opinions are just what some people think not what they know.
