Women Have Better Sex Lives!

If I owned a Radio Station in Dallas I would be spending most of my waking hours trying to figure out how to get HOF Ron Chapman back on the air because by the next day not only would I be the most dangerous broadcaster in town but well on the way to becoming one of the richest also.

Speaking of Stars the thing that Apple brought to the world that is so different than most companies including Show Biz and Sports is ... Apple makes it's customers the Stars.

Hey nice to see LeBron finally Manning up!

Some weekends are just great but others are mind boggling. Wow!

I have found that on some women a $20 dress looks like a million bucks on others it sadly looks like it came from Goodwill.

Jack McCoy told me a long time ago that whomever pays for the research always does well in said same research. It's magic!

Having recently attending the CKY reunion in Winnipeg with Jim Hilliard it was fun to hear how many people were influenced by Jim during his year and a half in Winnipeg. Jim had no idea he had started a ground swell nor did he know most of the people who came up to thank him. Jim was the PD at CKY- AM and they were board ops on the FM who went on to not only change Canadian Radio but to run it too.

In 1968 I was a production board op at CKY in Winnipeg. In 1972 I was the Station Manager of CFTR in Toronto which for some unknown reason seemed pretty normal to me back then. Now I wonder ... Just How The Hell Did That Happen!

Most Women have much better sex lives than Men because they are usually getting much more of it than they want.

Remember back in the day when not liking The Beatles made you appear very hip.

The Government puts a lot of pressure on the private sector to match the ethnicity of the population with their staff. I would suggest that they should look into doing the same.

The only cure for a Woman is another Woman.

As my Daughters were growing up I went out of my way to make sure they were never afraid of me like I was of mine. I think I may have gone a little overboard because now I'm sure I appear slightly wussy to them.

Speaking of my Daughters Cami who made the Honor Roll as she moves on to the 11th grade told me that my fear of this being one of our last vacations together may be true but it definitely wasn't the last.

Speaking of Cami she was kind enough to take me to my favorite restaurant for Fathers Day which is called Moe's. Funny thing is its her favorite also.

On the way to our Fathers Day dinner we got to talk to Cami's sister on the phone. Life is real good!

I read somewhere that Dads are now just guys who now carry pictures where their money used to be.

I've always only cared about what the listeners wanted and not much about what management wanted. Wow am I out of step with today's radio style or what.

Of all the people I know I still think I'm the most complicated person I have ever met.

Nude pictures of various beautiful women are wonderful, but nude pictures of women you actually know are priceless.

Who is going to tell all the pro athletes that listening to their i pads all the time looks and is a little jive now.
